

Report on the Leadership Development Initiative March 2016

In 2015, AACN's Board of Directors voted to develop a plan to re-conceptualize, repackaging, and remarket AACN's current leadership development initiatives and to ultimately expand the target groups for whom interprofessional leadership competencies can be developed in the health industry. To advance this plan, a Leadership Development Advisory Group (LDAG) was appointed and its members are:

- Ann Cary, University of Missouri-Kansas City (Chair)
- Harriet Feldman, Pace University
- Jane Kirschling, University of Maryland
- Janet Krejci, Illinois State University
- Judith Lewis, D'Youville College
- Cynthia McCurren, Grand Valley State University
- Catherine Cox, AACN Staff Liaison

The LDAG is following a two-step process to design and deliver a unified leadership product line whereby the request for proposal (RFP) for design is separate from a future RFP for delivery. The design RFP has been finalized and is scheduled for release on March 28, 2016.
