Current Practices in Data Management Education in Nursing Doctoral Programs

50 1969 2019
American Association
of Colleges of Nursing
Celebrating 50 Years as the
Voice of Academic Nursing

1

Martha Dewey Bergren, DNS, RN

bergren@uic.edu

Director, Advanced Population Health & Health Systems
Leadership & Informatics

UIC COLLEGE OF
UNIVERSITY OF ILLINOIS AT CHICAGO NURSING

2

University of Illinois-Chicago

Library of the Health Sciences Chicago

- Rebecca Raszewski, MS, AHIP
- Abigail H. Goben, MLS

College of Nursing

- Martha Dewey Bergren, DNS, RN, PHNA-BC, FAAN
- Krista Jones DNP, RN, PHNA-BC
- Catherine Ryan, PhD, RN, APRN, CCRN, FAHA
- Alana Steffen, PhD
- Susan C. Vonderheid, PhD, RN

3

Background

- Exponential growth in doctoral programs
- Data integral to doctoral nursing degrees
- Increased attention to data management
- Funding agencies require data management plans

4

Data management

Throughout the data life cycle:

- Planning
 - Collecting
 - Processing
 - Analyzing
 - Publishing
 - Sharing
 - Preserving
 - Re-using

5

PURPOSE

Identify existing data management education practices throughout the data lifecycle for DNP and PhD programs across the United States

6

Methods

- Surveys
 - Two surveys specific to DNP or PhD program
 - Multiple responses allowed
 - Open ended questions

- Invited 470 Program Directors
 - 332 DNP Directors
 - 138 PhD Directors

7

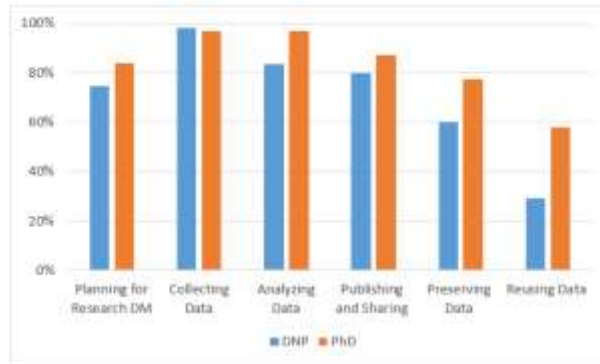

Results

- 104 responses; 22% response rate
 - 64% DNP programs
 - 35% PhD programs

8

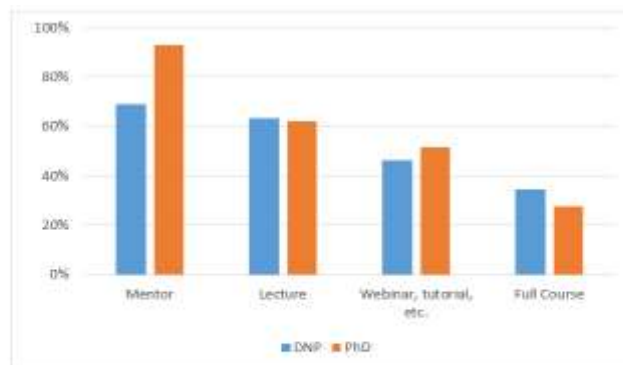

Data Management Education

DM-being-Taught-within-DNP-and-PhD-Programs'

9

Data Management Education

How-DM-is-being-Taught-within-DNP-and-PhD-Programs

10

Who is teaching data management?

	DNP	PhD
▪ Nursing faculty	98%	97%
▪ Statisticians	37%	62%
▪ Non-Nursing faculty	14%	24%
▪ Librarians	18%	14%

11

Data Management Plans

Structured document, describes types of data, software, hardware used, policies and procedures for data storage and sharing

Data management plans

- Half DNP programs required plan within DNP Project Proposal (50%)
- Almost half PhD research proposals required plan (48%)

12

IRB protocols

DNP

- 73% require QI determination review
- 65% require expedited or full IRB Human Subjects Review
- Other responses: internal college review, compliance officer review

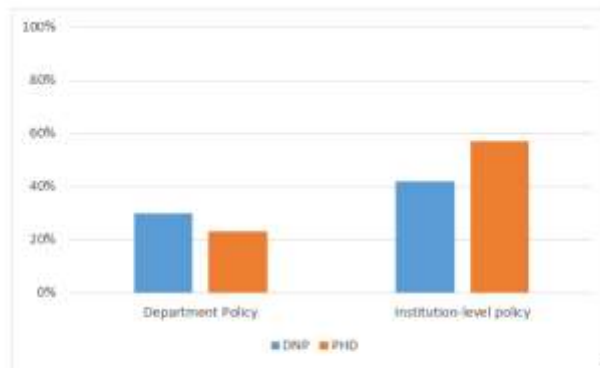

PhD

- 71% require exempt determination review
- 81% require expedited or full IRB Human Subjects Review

13

Publishing & Sharing Policies

Is there a Department Level Data Policy that Applies to Students versus
 Is there a University or Institution-Level Data Policy that applies to Students

14

Resources for de-identification

- DNP
 - 44% do not have de-identification resources
 - 30% did not know

- PhD
 - 45% had de-identification resources
 - 39% did not know

15

Sharing data

- | | |
|-----------------------|----------------------|
| ▪ DNP Students: | ▪ PhD Students: |
| ▪ Faculty mentor 96% | ▪ Faculty mentor 90% |
| ▪ Committee 73% | ▪ Committee 68% |
| ▪ Agency 63% | ▪ Agency 10% |
| ▪ Statistician 61% | ▪ Statistician 77% |
| ▪ College 41% | ▪ College 6% |
| ▪ University 20% | |
| ▪ Public available 6% | |

16

Preserving data: Storage

Institutional data storage

- | ■ DNP | | ■ PhD | |
|-------------------------|-----|-------------------------|-----|
| ■ None | 57% | ■ None | 29% |
| ■ Campus Shared | 28% | ■ Campus Shared | 48% |
| ■ Unsupported cloud | 6% | ■ College shared server | 32% |
| ■ College shared server | 6% | ■ Unsupported cloud | 6% |
| ■ College DropBox | 6% | ■ College DropBox | 3% |

17

Preserving data: Archive

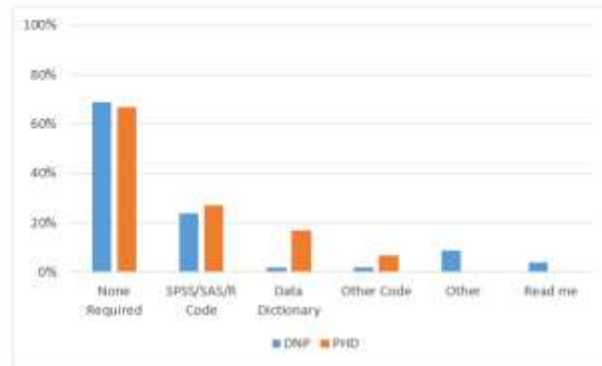

Institutional data archive

- | ■ DNP | | ■ PhD | |
|-------------------------|-----|-------------------------|-----|
| ■ None | 60% | ■ None | 66% |
| ■ Campus Shared | 20% | ■ Campus Shared | 24% |
| ■ College shared server | 7% | ■ College shared server | 17% |

18

Supplemental file retention

Which Supplemental Files are recommended or required when Preserving a Student's Project Data after the Project is completed

19

Who is responsible for student data?

- | | | | |
|------------------|-----|------------------|-----|
| ■ DNP | | ■ PhD | |
| ■ Student | 83% | ■ Student | 80% |
| ■ Faculty mentor | 28% | ■ Faculty mentor | 30% |
| ■ College | 17% | ■ College | 13% |

20

Re-using data

Who authorizes data re-use?

■ DNP		■ PhD	
▪ Student	64%	▪ Student	69%
▪ Faculty mentor	39%	▪ Faculty mentor	34%
▪ College	18%	▪ College	21%
▪ Campus partner	16%	▪ Campus partner	7%

21

Campus data management partners

■ DNP		■ PhD	
▪ None	31%	▪ None	30%
▪ Library	42%	▪ Library	23%
▪ Campus IT	38%	▪ Campus IT	60%
▪ Office of Research	27%	▪ Office of Research	37%
▪ Graduate School	24%		

22

Discussion

- No systematic data management approach or resources
- Ad hoc data management instruction
- DNP programs more likely to lack resources

23

Underprepared students and
overwhelmed DNP faculty
mentors

24

Faculty mentorship may have worked for small number of PhD candidates, but not for tsunami of DNP students

25

The current ad-hoc state of data management in nursing education requires an overhaul and adoption of a culture of data

26

Recommendations: Infrastructure, Policies, Practices, Curricula

- Appoint College of Nursing Data Steward accountable for data management lifecycle
- Adopt standard data management policies
- Institutionalize data management plans in DNP Project, PhD dissertation process
- Establish secure data storage solutions
- Develop campus partnerships for training, infrastructure

27

Recommendations

- Standard data management curriculum
- Systematic and ongoing training for:
 - Students
 - Faculty
 - Administrators
 - IT
- **Priority: data protection**
 - Limiting access to data, safeguarding data systems and storage, ensuring data integrity
