

Advancing Palliative Care

ABOUT ELNEC

The End-of-Life Nursing Education Consortium (ELNEC) project is a national and international education initiative to improve palliative care, in collaboration with City of Hope in Duarte, CA. and the American Association of Colleges of Nursing (AACN) in Washington, DC. The project provides training in palliative care with essential information to nursing students and practicing nurses, including undergraduate and graduate nursing faculty, continuing education providers, staff development educators, specialty nurses in pediatrics, oncology, critical care, geriatrics, and advanced practice nurses. ELNEC also welcomes other health care professionals.

Hotel Reservations

Hotel and travel expenses are the responsibility of the participant. Due to the nature of New York City having an abundance of hotels at various price points and locations, we do not have an ELNEC room block at a particular hotel. For those interested in staying within walking distance of the conference center please see the [recommendations list](#). If you choose to stay outside of these recommendations, please note that the conference center is located closest to the **A Line and 1 Line Subway Metro Trains**.

Things to do While Visiting the Area

New York City in September is a time of transition. It's still technically summer until around the 21st, but the city takes on an autumn frame of mind after Labor Day. Most New Yorkers are home from vacation, and the number of tourists in town is dwindling. NYC weather in September is pleasant and brings a bit of autumn color to Central Park and other green spaces, and a certain excitement is in the air as everyone looks forward to fall and September events in the city.
