ABOUT ELNEC

The End-of-Life Nursing Education Consortium (ELNEC) project is a national and international education initiative to improve palliative care, in collaboration with City of Hope in Duarte, CA. and the American Association of Colleges of Nursing (AACN) in Washington, DC. The project provides training in palliative care with essential information to nursing students and practicing nurses, including undergraduate and graduate nursing faculty, continuing education providers, staff development educators, specialty nurses in pediatrics, oncology, critical care, geriatrics, and advanced practice nurses. Things to do While Visiting the Area

New York City in September is a time of transition. It’s still technically summer until around the 21st, but the city takes on an autumn frame of mind after Labor Day. Most New Yorkers are home from vacation, and the number of tourists in town is dwindling. NYC weather in September is pleasant and brings a bit of autumn color to Central Park and other green spaces, and a certain excitement is in the air as everyone looks forward to fall and September events in the city.
