A WORKSHOP FOR FACULTY DEVELOPMENT IN PALLIATIVE CARE EDUCATION

UNIVERSITY OF PORTLAND PORTLAND, OR JULY 16-17, 2026

We are inviting applications from faculty at schools of nursing for a workshop to advance undergraduate and graduate palliative care education. This workshop intends to prepare faculty to serve as leaders in advancing palliative care curricula within their schools. Selected participants will engage in an active learning environment on topics that include palliative care educational resources, evaluation measures, and teaching strategies. Finally, participants have the option to submit an abstract for a poster presentation related to current or planned palliative or end-of-life activities at their school. Selected participants will agree to complete a six- and twelve-month post-workshop survey.

**Andra Davis, PhD,
MN, RN**
Associate Professor and ELNEC
Co-Investigator,
University of Portland

**Megan Pfitzinger Lippe,
PhD, MSN, RN**
Associate Professor and ELNEC
Co-Investigator,
UT Health San Antonio
