Dear Senator Merkley, Senator Wicker, Congressman Joyce, Congresswoman Bonamici, Congresswoman Kiggans, and Congresswoman Underwood:

On behalf of 64 undersigned organizations representing the Nursing Community Coalition (NCC), we commend you, as leaders of the Senate and House Nursing Caucuses, for introducing S.Res.206 and H.Res.389, honoring and recognizing May 6 through 12, 2025 as National Nurses Week. These bipartisan resolutions underscore the indispensable care the more than four and a half million Registered Nurses (RNs)¹, Advanced Practice Registered Nurses (APRNs)², nurse leaders, nursing students, faculty, researchers, and other nurses with advanced degrees, provide to patients across the country.

The NCC is a cross section of education, practice, research, and regulation within the nursing profession and recognizes how vital our nursing workforce is to the health of our nation. As the largest segment of the health care profession,³ nursing is involved at every point of care across a variety of settings, including in community health centers, hospitals, long-term care facilities, local and state health departments, schools, workplaces, and patients' homes. translating today's science into tomorrow's cures to frontline providers at the patient's bedside, these resolutions highlight all the ways nurses support our communities, not only during National Nurses Week, but throughout the year.

We deeply appreciate your recognition of how vital our nursing students, nurses, and APRNs are to the fabric of America's health care system. As we work to provide substantial federal investment for nursing education, practice, and research, and address the pressing policy issues facing our country, we look forward to working with you as we continue to support our current and future nurses. If the Nursing Community Coalition can be of any assistance to you or your staff, please do not hesitate to contact the coalition's Executive Director, Rachel Minahan, at rstevenson@thenursingcommunity.org.
