American Association of Colleges of Nursing

Celebrating 50 Years as the Voice of Academic Nursing

50TH ANNIVERSARY

Social Media Tool Kit
From an original 121-member organization in 1969 to today’s 814 member schools of nursing nationwide, AACN has grown tremendously, representing nearly 513,000 students and 45,000 faculty members. Over the past five decades, we have worked tirelessly to establish quality standards for nursing education and are proud to have remained the leading catalyst for excellence and innovation in nursing education, research, and practice.

As we celebrate our 50th anniversary, we look back on this journey with a sense of pride – and while it is satisfying to reminisce, it is exciting to look to the future. This tool kit was created to encourage our members to reflect and celebrate these past 50 years, as well as look forward to the years ahead. Looking into the organization’s past can help us identify successes and opportunities, and help shape our hopes and goals for the future.

In this tool kit, we have provided sample messaging and social media guidelines for you to utilize for this milestone year, including our official anniversary slogan: Celebrating 50 Years as the Voice of Academic Nursing. We encourage you to share any photos, memories, or stories with AACN over the years – these will be highlighted over the course of 2019 in order to highlight our appreciation for our outstanding workforce.
