

# AACN Research and Data Services

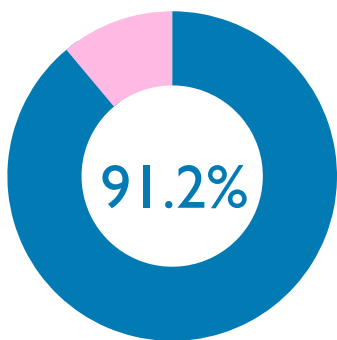

## ANNUAL SURVEYS

### Annual Survey of Baccalaureate and Graduate Programs in Nursing

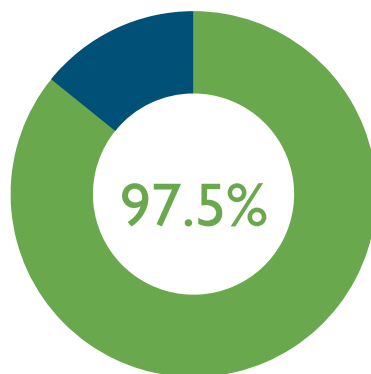

- Collects data on enrollment, graduations, applications, and salaries of full-time faculty and deans
- Results help schools inform decision-making such as planning new programs or increasing enrollment
- Participants receive a complementary copy of the data reports to which they contribute information

### 1,057 Schools Surveyed in 2021

#### Response Rate

#### % of Respondents Who Are Members

### Doctoral Student Roster Survey

- Collects doctoral student data at the individual level
- Results help schools understand graduate students' doctoral education progression

### Faculty Vacancy Survey

- Collects data on unfilled faculty positions by degree, rank, tenure, and teaching responsibilities
- See [www.aacnursing.org/News-Information/Research-Data-Center/Annual-Surveys](http://www.aacnursing.org/News-Information/Research-Data-Center/Annual-Surveys)

## RESEARCH

*Retirements and Succession of Nursing Faculty in 2016-2025 - published in Nursing Outlook, 2017*

- The study projects that **1/3 of faculty in 2015 will retire** between the years 2016 and 2025.
- The impact of the retiring faculty will be significant given their overrepresentation in doctoral attainment and senior rank.

*Individual and institutional characteristics associated with short tenures of deanships in academic nursing - published in Nursing Outlook, 2019*

- The study found that 41% of deanships have short tenures of less than 5 years.
- Deans in smaller nursing programs are more likely than deans in larger nursing programs to experience a short tenure

## CUSTOM DATA REPORTS

- Designed to meet the individual needs and preferences of member institutions
- Compare your school with a group of like institutions on variables such as enrollment and graduations by type of program or faculty salaries by rank and degree level
- See [www.aacnursing.org/custom-data](http://www.aacnursing.org/custom-data)
