

## CNL Renewal Schedule

Renewal applications may be submitted any time prior to the due date if the certificant meets criteria. Certificants renewing early are not penalized by adjusting an earlier expiration – the new recertification expiration date is based upon the previous expiration date. **Early submission is recommended.**

The renewal application should be filed with CNC on or before the CNL expiration date. All practice hours, contact hours, and graduate course work must be earned prior to the certification expiration date to apply towards renewal – activities must have occurred within the five-year renewal period.

**Certification Expiration:** CNL certification is recognized for a period of five (5) years. The expiration date is December 31<sup>st</sup> of the 5<sup>th</sup> complete year after certification (i.e. certification of CNLs initially certified in April 2014 expires December 31, 2019).
