

Regional Support for Schools of Nursing

Regional Chair

Dr. Andra Davis: As an Associate Professor at University of Portland, Dr. Davis is a faculty member in the undergraduate and graduate nursing programs. She is a co-investigator in ELNEC. Her clinical expertise includes cancer symptom support, palliative care, and primary palliative nursing care education. Her research contributions include advancing palliative care education through revision of national competency guidelines and development of outcome measures for undergraduate education. She engages in regional and national leadership to advance palliative care education. She has expertise in promoting international collaborations in palliative care and contributing to the body

of evidence in the use of nurse-led evidence-based symptom guides for patients undergoing cancer treatment.
