## Purpose

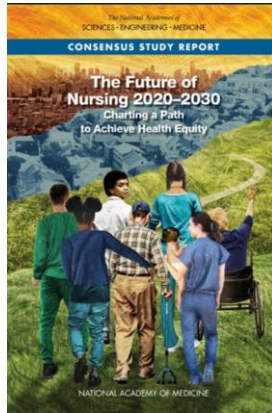

*“The purpose of the AACN Academic-Practice Guideline(s) is to strengthen nursing practice and lead change in the delivery of care in diverse healthcare settings by fostering a sustainable, replicable partnership between academic and practice settings. The guidelines will help elevate the professional role of nurses and ensure positive patient outcomes in multiple care settings”*

(AACN Academic Practice Guideline Charter, 2018).

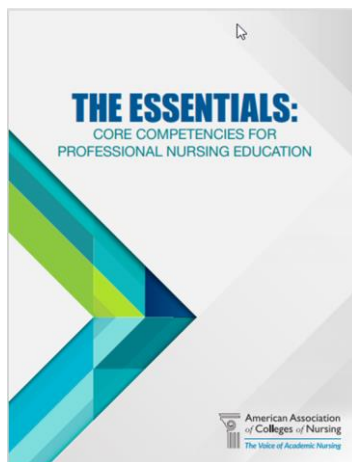

## Background: The Healthcare Shift to Outpatient Care

# Background

# Background

## Background

“Modern professional ambulatory care nursing is a unique domain of specialty nursing practice that focuses on health care for individuals, families, groups, communities, and populations. Ambulatory care nurses practice in settings distinctive from other nurses.”
